

ER-600C

Emulsion Remover

Product Description:

ER-600C is a biodegradable and odorless, low foaming, sprayable liquid emulsion remover for all types of stencil systems. *This product may be used straight for maximum effect or diluted 1 part product up to 4 parts water for better economy.*

This product is suitable for all types of spray systems and reclaiming units, ER-600 C complies with all SCAQM regulations and does not contain any SARA 313 reportable products!

When this product is used emulsion and diazo staining are greatly reduced!

Directions:

Remove ink using an Image Technology ink wash, Apply ER-600C to both sides of wet screen using a brush, chemical spray system or spray bottle and scrub with a soft bristle brush.

Pressure wash screen and follow with a low volume rinse. If you are using capillary films this product will produce a sheeting action.

Contains a degreaser and wetting agent!
